

How to add videos to the website?

Contributed by admin
Friday, 23 November 2007

For adding videos to the website, click on the add videos button in the website. And then insert the link or url of any of the servers mentioned in the list below. The website will automatically detect and show the video. You can configure the video and press save option. The video would be published as soon as it is reviewed.

The following video hosting servers are supported:

1 Google2 Youtube3 Metacafe4 Break5 Go Fish6 ClipFish7 PiknikTube8 Veoh9 Vimeo10 Revver11 Ozlesene12 Blip.tv13 Snowvision14 Guba15 Milliyet16 Trtube17 ifilm18 Myspace19 Mojoflix20 Bolt21 Dailymotion22 Gametrailers23 Livevideo24 Myvideo.de25 Putfile26 StupidVideos27 Glumbert28 Brightcove29 Sevenload30 Neufstream31 Vidivodo32 Movieweb33 Sclipo34 MSN Soapbox35 Stage6 Divx36 Megavideo37 Uzmantv
